

Statement

I have a strong belief in the idea of construction of the Museum of Modern Art in Warsaw.

The International Jury attended by authoritative members has chosen for implementation the project of Christian Kerez from Switzerland.

The stand I took was rejected by foreign members of the jury. It may very well be that my views were not „avant-garde” enough.

In that situation my capability to participate in the implementation of the project that has been chosen are exhausted.

I have therefore decided as the Director of the Museum to submit my resignation to the Minister of Culture and National Heritage and the President of Warsaw.

A broader justification of this decision shall be submitted to both the Council of the Museum and the Program Council.

**I am ready to struggle for the project that was specially distinguished -
